

QUALITY POLICY

The **Management of GEOFACTORY SPAIN S.L.U.** has approved this **Quality Policy**, which serves as a guide for how our organization and all its members develop and manage all their activities, responsibilities, and relationships, based on satisfying the needs and requirements of our clients in relation to the provision of the following services:

“Design and manufacture of equipment for geological sampling. Provision of technical assistance services on offshore platforms.”

At **GEOFACTORY**, we consider the continuous improvement of the quality of our products and services, as well as the satisfaction of our clients and stakeholders, to be one of our core values. We integrate dialogue and understanding with our stakeholders into our governance strategies and include their requirements and expectations as a fundamental pillar of our mission, vision, and values.

As part of the commitment and leadership of **GEOFACTORY’s Management**, the necessary resources, responsibilities, and mechanisms have been established for the proper implementation, development, and commitment to the ongoing continuous improvement of a **QUALITY MANAGEMENT SYSTEM**, aligned with the requirements of the international standard **ISO 9001:2015**.

Our **QUALITY MANAGEMENT SYSTEM** is designed and implemented through concrete actions defined in policies, procedures, controls, and established measures. It is subject to regular evaluations and reviews and is based on the following main commitments:

Quality and its improvement are the responsibility of all members of GEOFACTORY, starting with Management.

Quality is achieved by planning, executing, reviewing, and improving the Management System, while always considering the organization’s internal and external context.

Quality is focused on satisfying all our stakeholders through the organization’s commitment to meeting their needs and requirements, as well as legal and regulatory requirements and those specific to our products and services.

The quality of our products and services relies on the effectiveness of the Quality Management System, in which error prevention is a key aspect, always striving for the continuous improvement of our management system.

Quality drives us to pay the utmost attention to technological developments and potential improvements that new technologies may offer.

Quality requires everyone’s participation and collaboration; therefore, this Policy is communicated to all GEOFACTORY S.L. personnel for their awareness and understanding.

To achieve these commitments, we have designed and approved specific objectives that are measured and evaluated periodically.

Approved by Management, Málaga, September 30, 2025
